Topics in French Conversation: Interpersonal Communication is a multi-level course for French learners of Intermediate-mid to Intermediate-low proficiency. It is ideal for students completing a Certificate in French Studies, a French Minor, the French 2+2 Program, or a French teaching endorsement. Two-way interpersonal communication will involve both oral and written exchanges in the form of video clips, audio clips, text messages, emails and posts on a different theme each day. Students will practice and discuss language structures that come up in class conversations.
